The uttermost attraction you repressed until tonight  
is breaking free like a boundless stream of ravenous  
desire

Feral resurrection dancing on a wire celebrate the  
darkness  
that is torturing your mind

Flow your endless dreams are burning bright the  
resurrection code

Overflow of quivering shivers  
Standing by the moon shapes  
the night in

Paralyze the senses from our state of disgrace we  
must fall

chase the end of nightmares by the pulse of midnight  
we're reborn

Lycannihilation face the endless night your  
meaningless existence  
is a shelter between me and I

Flow your endless dreams are burning bright the  
resurrection code

Rise for a midnight ride from a senseless life the  
resurrection code

Overflow of quivering shivers  
Standing by the moon shapes  
the night in

Galleries of shadows stain the crystal-moonlit night

The netherbreed is reborn hail the eve of your decline

Chasing the dreams of the endless night

Solidify the steps of time

Flow your endless dreams are burning bright the  
resurrection code

Rise for a midnight ride from a senseless life the  
resurrection code

me paralyze the senses from our state of disgrace  
the senses from our state of disgrace we must fall

Overflow of quivering shivers  
Standing by the moon shapes  
the night in
