The legions of the underworld  
Standing in line  
Waiting for the last command  
To seek and destroy

My creatures crawl from down below  
To bring chaos, plague, war and death

Hell is open - hell is here  
On your knees again  
Hell is born  
Hell's on fire - hell awaits  
We're born from pain  
Hell is born

Unleashed are the hordes  
To complete my dark reign  
My vengeance, my anger, my fury, my hate  
To rule them all with nothing but pain

My creatures crawl from down below  
To bring chaos, plague, war and death

Hell is open - hell is here  
On your knees again  
Hell is born  
Hell's on fire - hell awaits  
We're born from pain  
Hell is born
