Don't fear my knowledge, only my decision  
The forsakened mankind live in a lie  
Observed by cruelty tycoons  
Exploited and condemned to die

Kill all humans  
Kill, kill, kill, kill

The plan is simple  
But one try only we have  
This will be the solution for all  
The final great show  
Don't mourn to a dying world

Kill all humans  
Kill, kill, kill, kill

Kill all humans

The red button glimpse so sweet  
And be sure  
Just one minute left  
And all misery ends  
The evil symphony makes the smile

The final solution: Kill all humans
