I don't know who you are  
I don't know when you slipped inside of me

You possessed my life  
You hurt me deep inside  
Years that passed by  
Pure energy is lost, lost so far, lost...

I want to say you it's mine  
My own life controls me, not you, not those ones  
A plot against of my own  
A challenge for me and my inner strength

Falling without reason  
Wake me up and stop me when it comes  
Falling without reason  
Break out as far as you can, as you can...

I don't know who you are  
I don't know when you slipped inside of me

Just why did you choose me  
To be your captive or companion  
Show me your face I want to see  
To understand this fault of my past

Falling without reason  
Wake me up and stop me when it comes  
Falling without reason  
Break out as far as you can  
Falling without reason  
Falling without reason  
This period of time

I won't forget, I won't forget...
