Your plastic world, your world is learning

They try, they fly, they keep us burning
Try - off, don't care, your world is learning

So, if we go together, so, let us dream. play every kind
of?

So, if we get high, whatever?
Try always to be in your plastic world

Your plastic world,
Your world is learning

Fetish '97

They come, have respect for it
Night, you are always there

No love, no way, your plastic world

So, if we go together, so, let us dream, play every kind
of?

So, if we get high, whatever?
Try always to be in your plastic world

Your plastic world
Your plastic world

Fetish '97
