Hey you,
Place called earth
Can I explain to you, who i am
I'm your worst nightmare

Worst nightmare - worst nightmare

I show no compassion - I've to run
Run to spread my horrible deeds
I posses no life - only one aim

Misery - scream for me - bleed for me
Misery - pain you feel pain is real

Pain is real - pain is real

Nobody can rule over me
I realize eternal life
I'm a mischiefmaker - no one can stop me

Misery - kill for me - die for me die!
Misery - be the one - the chosen one

Misery - misery
