I've no place tu hide

There's no life within me
I want to become free
To become free
There's no life within me
I want to become free
Safe you'll like I embrace you with?

Pain start pain start pain start again

Starved joy of life in me
An exist without a rough
Next day will come
The inner keep closed

No more pain - no more pain
I talk to you - life in fear

I've no place to run and hide

Trials die in the beginning
Realization is not real
The warmth suffocate by coldness
By my own coldness

I've no place to rund and hide

No more pain - no more pain
I embrace you with a deep gaze
No more pain - no more pain
My private story, my - you come

I've no place to run and hide

I embrace you with a deep lppk
The flood of infinite affection
Flows forwards you
Surrender of reason, deception is blessed

I've no place to rund and hide

Beholding myself - beholding myself
