Reason is the only guidance  
Intuition is rejected  
Corrupted state of experience  
Stagnated by mental passivity  
Remembrance of existence  
Is non existent  
A mental state of stagnation

Your subjective truth  
Is influenced by your beliefs

Stagnated by mental passivity

Dark corridors of reason  
A labyrinth of darkness  
Fear is the only guidance  
Reason is a cognitive state of mind

Your subjective truth  
Is influenced by your beliefs

Stagnated existence  
Corrupted experience  
Your subjective reality  
Is based upon your own beliefs

The present is the focus point  
Of the unbiased reality
