Make you understand
Than I fight'til the end
No effect on me
If you try spread misery

I'm a believer
I'm a believer

A spring - board to my brain
For you it's only a game
Just another try for me
To progress for my victory

Believer

I'm a believer
I'm a believer

How long you'll stay with me

I'm your worst enemy
I'm a believer - for you - no compromise

No compromise

Believer - believer - believer

So, now I'm free
And you'll see
Don't go back to past
Assassinate the scars
