Cry - away to heal
Fly - I want to flee
Pride and self - esteem
I will sigh no more

Pain is what i feel
Help is what i need
Please, please stay with me
I need your helping hand

Hand, I need your hand

How - could I believe
Life - only for me
Now - I'm alone
Near dead - end road

Stare - with empty eyes
Sign - of lifelessness
Why I'm so weak
Just let it all flow

Denial - Worst Enemy

Lies - have wounded me
Love - insanity
Loss of hopes and dreams
I just wanna live
I just wanna live

Denial - Worst Enemy

I just, I just, just wanna live
I just, I just, just wanna live
