## "Falling Down"

As it starts to work in me  
Many times gone by  
What I've seen was misery  
I saw people who fly to die

Naked aggression, the will to kill  
A deadly obsession, when time stands still, time stands  
Still

Falling down  
To the lost and murdered: there's no more evil  
revenge!  
Falling down  
It shocks, it kicks, it raped your soul away!

It shocks, it kicks, it raped your soul away, it rapes  
Your soul  
Away!

It's war, we're inside  
A sudden attack  
Ay unknown faces  
We can't turn back

Falling down  
To the lost and murdered: there's no more evil  
revenge!  
Falling down  
It shocks, it kicks, it raped your soul away!

I don't know what happens  
Got this picture in me  
I'll never forget, the sight that I've seen  
The sight that I've seen, the sight that I've seen

Forgiveness!
