welcome my first love, welcome my first love

try to reach me when I'm blind - I am blind, try to reach
me

you - have to learn, free in mind, you - touch me now -
now

welcome my first love, welcome my first love

try to reach me when I'm blind - I am blind, try to reach
me

you - have to learn, free in mind, you - touch me now -
now

try - to walk alone, so realize it,
love - I don't know

touch your lips, touch your mouth,
I want to break you down

this is my trip

I'll kill you, I'll rape you, I'll rape you
I'll kill you, I'll kill you

welcome my first love, welcome my first love

I'll kill you

good bye
