[RONNIE RON]

What's up this is Ronnie Ron comin' through another level

For the year 1999 and year 2000

I just wanna kick a little knowledge

For my little brothers out there and my sisters

I just wanna thank everybody that's been down

with Dangerous Records throughout the years

Thank all the Bloods and Crips for tryin' to obey their lives

And the news media don't talk about how crime has been waydown

Since that Bangin on Wax by ?? begun

I really enjoy of seein' Bloods and Crips checkin' it with each other

When everybody said it couldn't be done

My whole philosophy was to bring my brothers together

And to keep you outta graveyards

And I hope ?? youth

And the Record business is cold blooded for those who tryin' to break in

You gotta understand

You gon' have to pay a lot of dues

In this record business

The key to the record business is to try to understand this business

And that's our Dangerous Records got it fucked

Trustin' so-called lawyers and so-called motherfuckin' friends

You got some good lawyers out there

And you got some bad lawyers out there

And some of them are money-hungry motherfuckin' bastards

But one thing I learned you can't dwell on the past

You have to concentrate on your future

But I'll be goddamned

If this will ever happen to me again

Because only the strong survives

When I make a hit

All I wanna do is sharin' the pie

And my people can make money

You really need to understand how this game works
The white man need you
And you need him
He need you to make the records
And you need him to distribute it
If your record sells sharin' the pie
That's the bottom line
I want
To take the time to kick a little knowledge my brothers
If you wanna be successful in this record business
You gotta have these qualities man
You got to have respect for yourself as well as others
Personality, Character and Discipline
I'd rather deal with a artist
With a little bit of talent
And a whole lotta personality
Than to deal with an artist
That has a whole lot of talent
And a fucked up personality
We can make money together
You have to have these qualities to enter through the
danger zone
We're on another level now
It's about business
Let's get paid
