Servants of the Most High

I am just a man with as many problems
As anyone who has lived
And I have faced temptations
Some I pass and some I fail
I know what it's like to be on the mountain
And in the deep abyss
And I know what it's like
To be rescued from the stronghold of hell
When I have not humbled myself
God has humbled me
And I'm so far from knowing it all
Cause He's still teaching me
But I want to share the love He gave
So we all could be not of this world
Not of this world
Servants of the Most High, not rock stars
New creatures in Christ, not rock stars [2x]
We are meant to be examples
And not idols to be praised

We are just one of the many parts
Of the body of God
We're not here for our own glory
We're not here to steal from you
But our prayer from our heart
Is that you'll find God and see the truth
There is something greater
Than anything that money can buy
The privilege and the honor
To preach the gospel of Jesus Christ
And we want to share the love He gave
So we all could be not of this world
Not of this world

Servants of the Most High, not rock stars
New creatures in Christ, not rock stars [2x]
Servants of the Most High, not rock stars
New creatures in Christ, not rock stars [2x]
