Can you feel it?
Our anthem is rising
The voices are screaming
The minds are awakening

And now Marx is shaking the ground
Now we're running to tear these idols down

Send the flares
Revolution's coming now
The tide has broken out
Flooding 'til they all fall down

Revolution's coming now
The blood spilled on the ground
We'll cry until they all fall down
Revolution's coming now

And now the children take up their arms
And lead us in the charge of enlightenment
A mass exodus of fear leaving hearts
To the place where we will tear these idols down

Send the flares
Revolution's coming now
The tide has broken out
Flooding 'til they all fall down

Revolution's coming now
The blood spilled on the ground
We'll cry until they all fall down
Revolution's coming now

It's coming now

Send the flares
Revolution's coming now
The tide has broken out
Flooding 'til they all fall down

Revolution's coming now
The blood spilled on the ground

We'll cry until they all fall down
Revolution's coming now
