

Disciple "Watch It Burn"

Visit "[Watch It Burn](#)" on MotoLyrics.com

Infiltrated, crawling on the inside
Crooked hands put a soul in their chains
Wrapping nooses all around the halos
Another chemical making my blood insane

We're so sick of feeling helpless
We've been running this will to death
We're not a mark upon your checklist
You're going to feel it kicking in your chest

We've waited far too long, incinerate this

To all the anarchy inside we can't escape
Set it off, let it all burn down
To all the hell inside that's been controlling me
Set it off, set it off, watch it all burn down

Intoxicated, drinking all your poison
Your flattery's got us eating crumbs off your hands
It's gotten far beyond reckless
You're going to see it going up in flames

We've waited far too long, incinerate this

To all the anarchy inside we can't escape
Set it off, let it all burn down
To all the hell inside that's been controlling me
Set it off, set it off, watch it all burn
Set it off, set it off, watch it all burn down

Incinerate this

To all the anarchy inside we can't escape
Set it off, let it all burn down
To all the hell inside that's been controlling me
Set it off, set it off, watch it all burn

Set it off, set it off, watch it all burn
Set it off, set it off, watch it all burn
Set it off, set it off, watch it all burn down
