This is the deal  
This is my best offer  
You get the talking  
We get everything else  
I was touched by the fire  
And there ain't no firemen around  
I was touched and saved by the fire  
You get the keyboard  
You get the DSL  
Me and my brothers and sisters  
We get everything else

I hear screaming I hear nothing  
Walk this way, let me know, let me know  
I was touched by the fire  
And there ain't no firemen around  
I was touched and saved by the fire  
I was touched by the fire  
The sweet sweet fire and the sound  
I was touched by the sweet sweet fire
