I wish I just could improve myself
I wish I could move somewhere else
I wish I just could improve myself
I wish I could move somewhere else
Achievement would be being glad with myself
I wish I just could improve myself
I wish I just could move forward

Achievement would be being glad with myself
I wish I just could improve myself
I wish I could be a better myself
I wish I just could improve myself
I wish I could be a better myself
Achievement would be being glad with myself
