

## Disco Drive "Save Your Fire"

Visit "[Save Your Fire](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Come out and say, Come out and say  
Come out and say I'm sorry  
And everything that you do, I can't see it  
And everything that you do, I can't see it  
And everything that you do, I can't see it  
And everything that you want gets done  
There's something about you I can't escape  
Something about you that scares  
There's something about you I'll never know  
Something about you I'll never know  
Come out and say, Come out and say  
Come out and say I'm sorry  
And everything that you do, I can't see it

And everything that you do, I can't see it  
And everything that you do, I can't see it  
And everything that you want gets done  
Push your blood on the front page  
Wash your hands with your dead  
Push your blood on the front page  
Absolution comes easy  
Save your fire, brother it's up there, it's higher  
Save your fire, sister it's up there, it's higher  
Save your fire, brother it's up there, aim higher  
Save your fire, sister it's up there, aim higher
