Visit "[The Staying Beat](#)" on [MotoLyrics.com](https://MotoLyrics.com)

time is over, wake up!  
three-two-one, you lose your cup  
empty promises come for free  
just the way it had to be  
here's the problem, where are you?  
three always comes after two  
to stay against not to stay  
I could take my breath away  
is anybody staying?  
is anybody staying today?  
nothing's ventured, nothing's gained

nothing left for us but games  
still waiting for better endings  
that nobody's gonna take care of  
where's the problem? where's the end?  
you're a castle made of sand  
here's the problem, here's the end  
here's a castle made of sand  
is anybody staying?  
is anybody staying today?
