

Disco Ensemble "Threat Letter Typewriter"

Visit "[Threat Letter Typewriter](#)" on MotoLyrics.com

I'd forget my name if it wasn't printed on my passport
This state I'm in is frightening
Message tied on to a brick and thrown right trough your
first floor windows
Let's hope you die in lightning

Write your address on this paper
We'll pay you a visit later on
And we'll get even with you all

Threat letter
Typewriter
Just so you know
Threat letter
Typewriter
That's all I know

I've got friends behind my back that can come and
burn your house down
This state I'm in is frightening
I've got friends to cut your toes off just to show how
much they care
Let's hope you die in lightning
