Razing the corpse ridden fields of the dead beggars  
Immacualte genocide of the horrific kind Impaling  
decaying bodies  
On top of another Sadism the only cause Burning,  
disastrous filth  
Strench spreads throughout meadows  
Pastures and echoing valleys  
Pestilence takes its course  
Infecting the innocent souls  
Impaling decaying bodies  
On top of one another Sadism the only cause  
Impoverished filth of the crucifier  
Black death seeping and stalking the cold and gloomy  
fields  
Two centuries of plague to follow
