Excrescent mess on excoriate  
Multi ocular effervescing clots  
Orgyal semen eating and transforming  
Renal erosions satisfying my costive  
Cynic and perverse  
Lashing and chopped  
Oral ulceration, feasting detruncation

Fermenting corpora cava  
In soggy pulp  
Dorso craved on porous vomit growth  
Cervycal aneorosis  
Frying your tract  
Mutated offal in warmly ecstasia

Lunch of boiling rectal spinal germs  
Cracked colony of bio decomposure

Gnawing and drying your nail bladder  
Disconnect all dermis insective  
Perverse defects septic amorphia  
Processing all digest dehydrated germ  
Phelgmy scouring  
Lynphoid excretion  
Neural sarcophagy on the spinal  
Collapsing on splattered roasting scrub  
You're slowly drowned  
By my gore soak plasm

Embalmed in saliva  
And masticate endo phallia  
A trip in your anatomy  
Consume all suppure ruptures

The sound of the flyes eating the clench  
Of your dilute

Lymphatic soggy excitement  
Meat of abdominal regions  
In my defleshed vile pungently tumour  
Wasting all canker eating tissue

Regurgitate  
In your snapped grotesque wound  
Neo suppuration  
Carnage ulcerose insides

Plagued with macabre deformed cysts  
Slushing the chymes of aqueous putrescent

Eviscerating  
The connection of all arteries  
In your fetid flood y explore  
Only relics  
Intestinal disorder on muched spasms

Grimmed festal of sticky black mush  
Mincing on your ampute delicious sliced  
Cavities the orgy continues  
In carnivore beyond the grotesque

Wrecking semi digest  
Blists on the placent  
Genitorturing and encrust you in vomit  
Licking all your abrupt  
Lacerating your shredded remains  
Disgorged fragments of skin

Swollen the breaking mixture  
Entrails calcinate and full of suffering  
Mincing the urinal complex  
Organisms full of bizarre  
Boiling through my oxidised  
Scalpel cynical ferment

The pus on pectoral rigid sector  
Drag you in clots blastomy finished

On necro digested  
Vocal chords totally munch and full of piss  
Cutting the pulverize  
Corporal emunction  
The parasites swarm into ossified  
Mangling your cranium  
Exposing your caenage insides
