Visit "[Pedophilamorphia Of Excreachollemical Endolapse](#)" on MotoLyrics.com

Coitus raped
Blastomed cranio
Uretthrall odour
Starts to pyose pus
Cadaveric annals macerate
Necro dissected
Endo lapses enzyme
Spyro cardiac marbles
On scouring blast
Pedophilatrophy on rected
Lipoma danks

Haemoglobal furuncle gnaws rupture
In the acrid ward the sunken germs
Quolicystomy retro rigid cartilages
Now the parylisis splattered deformed

Cranio virulunced exeulcerated on castrated
Gangrened liquefaction on metamorphose
Grounded fludges verrucose in the crypts
Anatomy starts changing dissoluced
Conjunctivated post colemesis defects
Viruses extirpate by leechs of grin

Rot progressive
Cavernose suppure
Vile colony
Of necro biosis in the rectum

Abortive psicopatogenetical ureter

Empyamical vesaculla chewed in nausea
Blackened sperms effluviyzing on the corrupts
Cynic vomited diaorrhoea excreted off
Eructs of faecal chronic stuprums

Rotting cancer in clinic pancreo invulse
Nodules pseudo regurgitate dilation
Inner gutted of endo lapse flatulentia

Hot stink inside malformed fungoids

Saturated growths of phelgmy tumours
Hack crispies munched vaginal gurgle
Skewering freshly intoxicated pyoma abrupture

Monstrosity
On clots of catalypts
Soggyness
Giblets on total amorphht
Smells of the cottedred
Putrid oestocondroma

And I taste my enema
Fullfied me on maturation

Mixing anal erupts grubing of putrefactive
Anereocervyx implants
On grotesque mucose
Necrotic asepsiaphagist
In mucopurulence
Haemangled marbled scoured

On the thyroided my warts clumps in chunks

Urina melting and boiling on the porous
Calculal convulsing
Rectocells in warts
Excoriating mincing dismembrent
Reproducing slowly diseases in dorso
In sickly dusks of reek
Pharygerms now gargling

Choped in half and mutated turfs

Dark red
Excreachollemesis
Facial mastication cadaveric sub tumours
Blistering in all
Pharyngalle abruptions
Evacuatiog malformed on dark piss
Fissures of putrid weak rotting insides
Along the body, the greenish, sub acrid grubs
