Stand and deliver  
stand and deliver!

You made me a promise  
sealed it with a kiss

Had me thinking everything was go.  
It was good from the start  
I loved you from my heart

Why do you want to stop the show?

I've got it  
baby  
you can make it better  
baby  
say you will

It's driving me mad  
'cause I love you

There's so much more to say  
don't leave me this way.

Stand and deliver

Can't you see me coming  
baby  
don't close the door.  
Stand and deliver

You might be missing something that you never had  
before.

Thought we'd go the distance  
now there's some resistance

You're telling me you're not too sure.  
Love only has a shot if you give it all you've got

And girl  
you've got to give some more.

Feel like I'm on the outside  
tossing like a leaf in the wind

If I had to start all over without you  
wouldn't know where to  
begin.  
'Cause you are all that I need and I want you bad  
enough to keep on  
trying.

Stand and deliver  
...

Give it up  
give it up - come on and make a stand -  
You gotta  
you gotta  
you gotta.  
You know that you are so right for me

I know that I'm right for you  
stop hesitating!  
You are all that I need and I want you bad enough to  
keep on trying.

Stand and deliver  
...

Feel like I'm outside  
baby

Can't you see me coming  
baby  
don't close the door.  
Stand and deliver  
you might be missing something  
yeah

You might be missing something  
yeah  
stand and deliver!
