I am falling and I cant get up  
I tried to walk but almost threw up  
Only took a few shots but that didnt last  
This time Mr. Cuevo got the last laugh  
I felt the burning going down my throat  
So I had to follow it down with some crown and coke  
Now Im twisted who got the herb lets get lifted  
Carring it around two drinks double fisted

To all the night that I came home  
With my head hangin out the car window  
Came stumbling through the front door  
And passed out on the bathroom floor

Get liquified get up  
Im a fucking tramp
