I see a storm rise in the east  
Forces of evil on the move  
Tyranny and blasphemy follows in their wake  
Back to the Stone Age  
Serpents of the crescent moon  
Cast their shadow over weak minds  
Live in perpetual twilight  
Totalitarian regime bringers of night  
Holy wars  
Holy shit  
Sacrifice  
Suicide  
Religious tyranny  
Masses gather by the blood soaked banner  
Unknowing of their fate  
Brainwashed, fanatical and blind  
They die by the flag of hate  
Blood for paradise  
Give their lives for lies  
Vessels of death  
Carriers of disease  
Breeding insanity  
Religious tyranny
