Brutal orgy of flesh  
A carnal feast for our lord  
Feel your life float away  
As I revel in your blood

Maggots crawl in your flesh  
Your life is ending here  
Terribly maiming your corpse  
Rotting pieces here and there

The loss of your life is now a fact  
Dead, eternal hell, awaits  
Rotting soul now dies

Innocent soul dismembered  
A trophy to our lord  
Enter the dark regions  
And suffer a thousands deaths

You pray for eternal life  
But your cries are denied  
As you pray to your God  
I spit on your grave

Slaughter remains  
Enter my ways  
Descend to hell  
Llewd yllanrete ll'eW

(Suffer a thousand deaths)

Like the rest you all will die  
Cast into the pits of hell

(The loss of your life is now a fact  
Dead, eternal hell, awaits  
Rotting soul now dies)
