Oh whoa-oh, well the pony was funky  
The watusi was kinda smooth  
Oh whoa-oh, well the problem with all  
Those little dance steps was you had to move  
Oh whoa-oh, well they found a brand-new step  
And it doesn't take anything to get this groove, uh-huh!  
And I don't want no standing stillâ€¦  
And I don't want no standing stillâ€¦  
And they're doing the standing stillâ€¦  
And I don't want no standing stillâ€¦hey!  
Oh whoa-oh, well it's a sensationâ€¦  
Across the entire nation.  
Oh whoa-oh, a hundred million kids  
All dancing in suspended animation, hmmâ€¦  
Oh whoa-oh, and the feeling's all right  
We'll be standing still until the morning light, yeah!  
And I don't want no standing stillâ€¦  
And I don't want no standing stillâ€¦  
And they're doing the standing stillâ€¦  
And I don't want no standing stillâ€¦hey!  
I'm not mad, I'm just disappointed  
Oh, my aching head.  
Uh-huh!  
Oh whoa-oh, in Fargo, six or seven kids  
Watched the Plan in a strip-mall  
I thought they were bored out of their skulls  
But it turns out they were having a ball, uh-huh  
Oh whoa-oh, well I finally knew  
They were doing a brand-new step everybody isn't  
moving to  
And I don't want no standing stillâ€¦  
And I don't want no standing stillâ€¦  
And they're doing the standing stillâ€¦  
And I don't want no standing stillâ€¦yeah!
