[Krayzie - 4x]

He did (he did) ya wrong

[Chorus]

Hey girlfriend, if someone told your boyfriend, ohhh,  
uh, uh, uh, uh  
If they told him, what me and you be doin  
Somebody's gonna be in trouble (gonna be in trouble)

[Krayzie]

(???) we be kickin it like husband and wife  
You see that's the reason you sleepy sayin "not  
tonight"  
Meet me at the corner store ain't nobody gotta know  
Soon as you pull up we pull out and roll  
Follow me home  
Let's get away and be alone, unplug my phone  
You know the song baby  
All around the world it's the same song, the same song  
Turn off the light we be smokin bud in the dark  
Every time I hit the weed  
I can see your beauty reflectin when it spark  
Girl I feel it the reeder and the vibe is perfect  
And don't feel worthless cuz if your man was actin right  
he'd be worth it  
Baby, he don't deserve this (deserve this)  
So don't be actin nervous  
And besides he ain't here it's closed curtains  
Gettin it on shit  
You know it's something about  
When you be sneakin for some reason  
The lovin feel much better  
When you're creepin don't you get too sleepy  
You know you gotta go  
Yo man is back at home and probably waitin at the door  
So, I get with you tomorrow  
Baby just page me, hit me up  
And when I jump outta work  
Come on over and give me some

[Chorus]

[LaReece]

All I needed was a thug in my life  
Somebody that'll treat me right  
Slap it from the back, and keep it wet all night  
A rider like you that's ghetto-life  
Answer to my dreams knew that you was him on sight  
The way your shit was tight  
Ain't no happy home, uh-huh  
Talkin to them chickens on the cell phone  
Took your shit too long  
Now two can play the game  
I'm feelin you and ain't no shame (shame)  
And when i'm in your arms I feel no pain (pain)  
Can't hit the spot like you, cop a knot like you  
Flip it over quick and knock it out the box like you  
Keep it locked like you it's only on my mind  
And when i'm rollin in my Benz knowin you on your  
grind  
You make my heat melt  
And I don't want no one else  
If I can't have you i'd rather touch myself  
Just give the word boo, i'm leavin all this shit for you  
That thug passion got me sprung, so whatcho gon' do?

[Chorus]

[Krayzie: repeat 2x]

Gonna be in trouble, gonna be in trouble  
In trouble, in trouble  
Cause if anybody find out, uh-uh, and you know that  
Yes you know that

Hey girlfriend, if someone told you girlfriend...
