Indoctrination since early youth  
murder of the free thinking mind  
religion the root of all evil  
the source of all suffering

Deeper and deeper into the void  
across the wasteland of your mind  
lying to live, living their lie  
they make you betray your own kind

Life of agony  
you have chosen your way  
self induced misery  
you are led astray

The free will shall carry the day  
drop the bomb and wash the filth away  
let the napalm rain

Step into the sickening light  
into ruins of heavenly might  
embed yourself in their moral vanity  
sell your soul to insanity

Religion is an excuse  
for a lack of character  
something to fall back on  
when all else fails

Islam, Hindu, Christianity  
it's all based on lies  
there is no key to paradise  
believe in yourself and all gods die

V. LIVE FOR THE FEAR (OF PAIN)

Music: D. Blomqvist, R. Sennebeck, F. Estby. Lyrics: F. Estby

Born without dying empty  
walk alone for a lifetime denied  
the spark of life forever missing  
a fear so vast it grows inside

Soul bleeding never healing  
at the end of the day my spirit leaving

Of all I own handful of a  
solid void what's left to give  
can't get rid of all this guilt  
blame myself for as long as I live

Shadow of the former me  
reach for surface can't break free

Blind, Cold, Bitter  
from dreamfield to death  
wasted life on living  
suicidals see no reason for another breath

Still forsaken hope all taken  
keep on feeding the nightmares within  
I see it clear still so tragic  
against frustration no one wins

Sinking deep into depression  
suffering the weight of confession

Upon the loss of a better fate  
laid out before me all pure hate
