"Saw Them Die"

Ascending from the grave
Awakened from my sleep
To this world, from this earth
Destined to forever seek
From the fields of an age ever splended
Down to this globular place of dirt
Never realized that my life never ended
Screaming through the process of rebirth
Only existing to die once more
Ever agonizing pain my only thirst
My rotten carcass
Cold and worm infested
Meets it's destiny
Reborn in blasphemy
Oppressing darkness close in on me
Twilight madness ripping souls apart
Taste my unholiness
Deep in flesh I'm waiting
As hell appeals to me
Reborn in blasphemy
