Spirit side dreaming
Let your blood flow
A last grasp
At your dying faith
I will eat your soul
Your suffering is mine
I'll be your source of pain
Dead ends now entwine
Phastasmal being nightmare creature
Your death to be sustained
Repeating your act of painful demise
The will to live forever maimed
Demon resurrection
Come die with us
A bloodstained path to oblivion
Scarring both mind and soul
Fuel my evergrowing hate

As I devour you whole
Soul devourer
Lifeeater
I bringer of bitterness
To forever be
Forever sleep
With a hellbound heart
Where pain is born
Carved in flesh
Another object of my art
As I did you also learn
Screaming as our soul burn
The meaning of your severe pain
Your crawling flesh dies again
