

Dismemberment Plan

"Wouldn't You Like To Know?"

Visit "[Wouldn't You Like To Know?](#)" on MotoLyrics.com

I lost my membership card to the human race
So don't forget the face
Because I know that I do belong here
Go down the checklist let's see:
Feelings are good
Dishonesty is bad
And keeping it inside is worse still
You want a problem well I guess we got one now
I really don't know how
There's injuns over every goddamn hill
What do you want me to say?
What do you want me to do?
To let you know that I do mean it
What do you want me to say?
What do you want me to do?
To let you know that I do mean it
What do you want me to say, yeah?
I see it coming from a million miles away
What else can I say?
The only way you know I love you
And there's no eye-to-eye just Moses on the mount

Or I'm in for the count
You need your man above or below you
I cannot cry at will but I do wish I could
Cause it'd do you some good
When every joke I make is treason
There was a time when you could make me laugh at will
And you can do it still
But never is it for the right reasons, yeah
What do you want me to say?
What do you want me to do?
To let you know that I do mean it
What do you want me to say?
What do you want me to do?
To let you know that I do mean it
What do you want me to say, yeah?
