Hey I do a beat
We got a beat here too ya know
A little more sophisticated
Mmmm

I've got you beat
In the village we learn it right
I've got you beat
In the jungle, we learn all night
Count on me
To get 'em dancin' down the street
1, 2, 3
Cos when it comes to this
I've got you beat

Pretty good huh?
Yeah

In the sleepy town we come from
There's a steady beat we play
Might be just a little humtrum
So I'd like to learn it's place
It's in fire and in water
In the house and down the well
It's in every son and daughter
In the top and in the bells

I've got you beat
You do, cos I break every single rule
I've got you beat
Says who
Cos I know how to keep it cool
Count on me
To get 'em dancin' down the street
1, 2, 3
Cos when it comes to this
I've got you beat

How bout this
Hmm, not bad
In the jungle there is
Yes I'm sure that I've been told

No drums the way that we drum
No it's very uncontrolled
There's this grouchy old Phirana
Who knows all the hippest tunes
Once a shiny green iguana
Show me how to

I've got you beat
You do
With a solo that always wins
I've got you beat
With the tempo that never fails
Count on me
To get 'em dancin' down the street
1, 2, 3
Cos when it comes to this
I've got you beat

Yeah
No No, watch this
No one plays the way that I play
(No one plays the way that you play)
Anytime we two play
When I play you'll be impressed
When you knew who is clearly the best
I'm the best

Nothing wrong with competition
How bout girls against the boys
You'll see every in addition
As we make a little noise
I'll be faster
I'll be stronger
I'll do that
And I'll do this
We'll see who can hold out longer
And the winner gets a kiss

Got most of the kyrics rite, I just can't tell what rest is
