[Max:]

There are times when you drive me, shall we say,
bananas

And your mind is missing, no offence, a screw

[Goofy:] None taken

[Max:]

Still whatever mess I land in, who was always
understandin'?

Nobody else but you

[Goofy:]

Oh your moodyness is now and then bewilderin'
And your values may be, so to speak, askew

[Max:] Gesundheit!

[Goofy:] Thanks!

[Goofy:]

Who deserves a hero's trophy, as we face each cat-a-
strophy?

Nobody else but you

[Both:]

No-boooooody else but you

It's just our luck, we're stuck together

No-boooooody else but you

Is crazy enough to believe we'll come through

[Max:] So your jokes are all, let's face it, prehistoric

[Goofy:] And your music sounds like monkeys in a zoo

[Both:]

But when life becomes distressin'

Who will I be S.O.S'n?

[Max:]

If you're having trouble guessing, here's a clue!

Though he seems intoxicated, he's just highly
animated!
And he's nobody else, but...

[Both:]
No-boooooody else but you
We've turned into, a true blue duo
Hard times, we've had a few

[Goofy:] Like we're thrown in the drink

[Max:] Like we're tossed outta town

[Both:]
But when I start to sink
Hey I'd rather go down
With nobody else, but
Y - O - U!
