We Gotta clean you up child and give  
you some on the job training ohhh yea

Now Listen up you've got alot to learn,  
and if you dont learn, you dont eat.  
But if your tough and always use your head,  
you'll be right at home on the street.  
When you've got talent everything is free,  
Watch how we do things,  
ohhh I guarantee.

Your gonna see how the best survive,  
We make an art out of staying alive.  
If you do just as your told,  
These are Streets of Gold.  
(Streets of Gold)

Every Boulevard is a miracle mile,  
You'll take the town,  
and You'll take it with style,  
If You play it brave and bold,  
These are Streets of Gold.

Listen Here Honey

To live from week to week you need Technique,  
So you practice everyday.  
The only rule is thou shall not get  
caught.  
Get what you can and then get away.

Remember all the ways that you can hide,  
Remember we are always on you side.

Your gonna see how the best survive,  
We make an art out of staying alive.  
If you do just as your told,  
These are Streets of Gold.  
(Streets of Gold)

Every Boulevard is a miracle mile,

You'll take the town,  
and You'll take it with style,  
If You play it brave and bold,  
These are Streets of Gold

When you've got talent everything is free,  
Watch how we do things ohhh I guarantee.

Your gonna see how the best survive,  
We make an art out of staying alive.  
If you do just as your told,  
These are Streets of Gold.

Every Boulevard is a miracle mile,  
You'll take the town,  
and You'll take it with style,  
If You play it brave and bold,  
These are Streets of Gold.  
(Repeat choir 1x).
