"Where Dreams Begin"

Visit "[Where Dreams Begin](#)" on MotoLyrics.com

Just put your hand in mine
Go where dreams begin

Everyone has their own star in the sky
There's one for you and me
Yes it's a magical light
That shines high up above
Far as the eye can see

It shows us the way
Lead us safe through the night
Into a lovely fantasy
Its heavenly glow
Will help our love always grows
So take my hand
Don't let go and you'll see

Just put your hand in mine
And then we'll go where dreams begin
I'll teach you how to fly
And then we'll go where dreams begin

It's a wonderful ride
As we scale the heights
There's no better view or place you've ever been
The signs are clear with you
Where dreams begin

Everyone wants someone they call their own
Love really holds the key
So if you open your heart
It will open your eyes
It's not a mystery

You don't need a map
To show you the road that you're on
'Cause you already know the way
Directions are clear
You're getting ever so near
There's nothing else left to fear
Don't delay

Just put your hand in mine
And then we'll go where dreams begin
I'll teach you how to fly
And then we'll go where dreams begin

It's a wonderful ride
As we scale the heights
There's no better view or place you've ever been
The signs are clear with you
Where dreams begin

We're in the place where dreams begin
This is the place of dreams begin
We're in the place where dreams begin
The place for love to come on shining

If you open your heart
You keep the star as your guide
You know that love can save the day
The dreams that you hold
See how they turn into gold
So let the story be told right away

Just put your hand in mine
And then we'll go where dreams begin
I'll teach you how to fly
And then we'll go where dreams begin

It's a wonderful ride
As we scale the heights
There's no better view or place you've ever been
The signs are clear with you
Where dreams begin

Just put your hand in mine
And then we'll go where dreams begin
I'll teach you how to fly
And then we'll go where dreams begin

Just put your hand in mine
And then we'll go where dreams begin
I'll teach you how to fly
And then we'll go where dreams begin
