Come out moon  
Come out wishing star  
Come out  
Come out  
Wherever you are

Im alone here in the dark  
All alone and wide awake  
Come and find me  
Im empty and Im cold  
And my heart is about to break  
Come and find me

I need you to come here and find me  
Cause without you Im totally lost  
I've hung a wish on every star  
It hasnt done much good so far  
I can only dream of you  
Wherever you are

Ill hear you laugh  
Ill see you smile  
Ill be with you just for a while  
But when the morning comes  
And the sun begins to rise  
Ill lose you

Because its just a dream  
When I open up my eyes  
Ill lose you

I use to believe in forever  
But forever is to good to be true  
I've hung a wish on every star  
It hasnt done much good so far

I dont know what else to do  
Except to try to dream of you  
And wonder if you are dreaming to  
Wherever you are

Wherever you are
