"More Than Fights"

Visit "[More Than Fights](#)" on MotoLyrics.com

Come to the gigs
And you have a fight
That's fine
Until you're doing time
Anarchy means this
Do what the fuck you want
If you wanna fight
Then go and fight

There must be more than fights
Band don't like fighting
They tell us all to stop
We pay our money
Promoters call the cops

It's not all that clever
Don't think it's right
To enjoy ourselves
We always gotta fight
End of the night
Still at the start
They say don't do it
We're kept in the dark

This country is violent
From bottom to top
Everyone they should know
We really should stop
