I met you just tonight but i keep wonderin' why  
It seems i've always known you all my life  
I held you only once but i keep wonderin' why  
It seems i've held you forever

Can't it be true, could i be wrong  
That somewhere in my past i fell in love with you  
Can't it be true, could i be wrong  
That somewhere in my past there was also me and you

I've kissed you only once but i keep wonderin' why  
It seems i've kissed your lips so many times  
I've known you only now but i keep wonderin' why  
It seems i've known you forever

Can't it be true, could i be wrong  
That somewhere in my past i fell in love with you  
Can't it be true, could i be wrong  
That somewhere in my past there was also me and you

Can't it be true, could i be wrong  
That somewhere in my past i fell in love with you  
Can't it be true, could i be wrong  
That somewhere in my past there was also me and you

I've loved you only now but i keep wonderin' why  
It seems i've loved you forever  
Somewhere...  
There was you and i...  
Somewhere
