So dark...Im facing my destiny
As far as pleasure led my disciple was me
For ages I have been searching for my bride
Since she passed away grief became my guide

[Chorus:]

As darkness falls above
- It will be there for centuries
My mistress of sorrow she will hear my call

I sort of entered the other side...
When those words were called up to the sky

[Chorus:]

As darkness falls above
- It will be there for centuries
Mistress of sorrow, please hear my call

As darkness falls above
- It will be there for centuries
No mistress of sorrow ever heard my call

[dedicated to life]
