Lyrics: NÅŕdtveidt

Night haunts and evil lurks in every corner

Like plague it's spreading - I behold

Loneliness, yet with you autumn night as guest

But can you hear my cries?

Permeate me, oh night, as with the forest you did

For heart is cold, cold as ice

I drown in the colour of your eye

For a black heart will only find beauty in darkness

I breathe it's eternity to absorb the sky

Where the shadows of death may lie

Chorus:

Feel the call - Nocturnal desire

Sorrow's breath - Enchanting cries

Night's blood - Taste damnation's wine

Feel the pain - Nocturnal desire

The devil's path of dark delight

Night's blood - Pure damnation's wine

Eyes are glowing, burn as hell's fire

Mark thy wisdom in my mind

Those who never was born

But whose darkness eternally

Devastated the goodness built up through milleniums

No time passed, our victory is eternal

Our scorn, our silence...

A heart dies drowning in the night's blood

Everlasting malice for the wicked soul

Can't resist the night's sweet blood

Loneliness in the embrace of you autumn night

The night that froze my cries

Deep into the woods glows a fading light

I sold my soul, cold as ice

I drown in the colour of your eye

For a black heart will only find beauty in darkness

I breathe it's eternity to absorb the sky

Where the shadows of death may lie

Chorus:

Feel the call - Nocturnal desire

Sorrow's breath - Enchanting cries

Night's blood - Taste damnation's wine

Feel the pain - Nocturnal desire

The devil's path of dark delight
Night's blood - Pure damnation's wine
