Whatcha live for when you noone  
What ya do and where ya come from  
You call i feel a lack of grace  
A certain disconnection  
Dissapated understanding  
Seems like second slitting  
Seems like second slitting  
In a third world company

I know what you wanted  
I know that you want it, want it

Well hell yeah  
Don't walk away  
Don't walk away  
Don't walk away

Shit

I met a man on the street  
He said this is poverty  
Down-town on broadway st.  
I don't really know his name  
He said live in the world not for gain

I know what you want, hey  
I know that you want it, want it  
I know what you wanted  
I know that you want it..
