no more coquettish look on your face  
not so much pretty but youre in your place  
hide behind your man dont dare to think for you  
keep your claws off me as i walk on through  
walk on through, dont you glare  
im not the kind of girl who will just pull on your hair  
i wont be through til youre blue  
just us two, watcha gonna do?

damn man come on and sell your seconds  
no one can make ya make ya break ya  
anyway, anyway, anyway i will break ya, theyll crown  
me

never used to harm noone no matter what the reason  
now you dug your grave and its bitch hunting season  
smiling madly honey when i see you  
around biding my time till i can get you on the ground  
its not my plan to steal your man  
its a pitiful sight thats hard to stand  
i guess i dont get a clue  
so just step your ass aside and let me walk on fucking  
through

damn man come on and sell your seconds  
no one can make ya make ya break ya  
anyway, anyway, anyway ill make ya, theyll crown me
