Oh lordy lordy  
Well your head hangs below the ground  
Oh lordy lordy  
Well i think thats where your found

And so they tell me that you aint my friend  
Im a loss to yourself ill assure your again  
When you cry me some real tears  
Ill be on the run  
You come near me now girl

Ill go get me a gun

Ive never been to prison  
I dont know why  
I stared death down in its chambers baby  
Eye to eye  
If prison is a cell then its raging through my blood  
This is a song from the heart aint nothing else
