Half asleep, awake at last
Take a look at the hour glass
Yet another day goes by
I'm falling down, but looking up
Do my best but it's not enough
I need picked up from where I left off

What's the meaning of this time
What makes me so borderline
Having nothing but your love
Bringing everything to give
Showing nothing held within
Experience got the best of me

You are the best thing in my life

Gotta make peace with myself
Gotta understand somehow
You'll always know that it's for you
Trying hard to keep it straight
Love I can never recreate
For you I am still holding true

You are the best thing in my life
