"Boarding Time"

So, this centre of the world
Is it the place that you are told?
And now, the dream is growing bigger
law and order keep their fingers on the trigger

Stuck, in a copy of their pride
The freedom dies out in the night
Go, let us get out while we can
Before our nation will rollover and play dead

Who will take us off into the tides
Before we answer to their rights
Pair up before the US flood
Cause this nation lost his bleeding guts

Hey hey, boarding time
Boarding time will be too late
