

Disturbance "Generation X"

Visit "[Generation X](#)" on MotoLyrics.com

What's this world coming to?
Live our life the way we want
The companies can't force you
Disobey, or be a runt
Cause we live our life the way we want
Cause we are out front
Live our life the way we want
Cause we are out front

Drugs, punk, beer and sex
We are generation X
Won't wait on their attack
We are generation X
Won't do, what they'll expect
We are generation X

What's this world coming to?
Live our life the way we want
The companies can't force you
Disobey, or be a runt
Cause we live our life the way we want
Cause we are out front
Live our life the way we want
Cause we are out front
