Drive your car to your job, Forgotten days when your  
life stopped

Lost the night's when your mind popped, Take your  
wife on holiday

Earn your keep turning grey, Hoping for another day

We don't want to spill our time

We don't want to stand in line

We won't wait until the day

We have to listen and obey

We don't want to spill our time

We don't want to stand in line

We won't wait until the day

We have to live on to decline

Hide your fear behind the walls, Only out when duty  
calls

Where the hell are your balls?, Your best dream, is  
success

Won't you think it's time to confess? Your life is a  
fucking mess

Now you're growing up to be working for us  
and it will be so long before you can sit-on-your arse  
Now you've become part of me, there's no way of  
escape

You are told to agree, you're just another slave

Years and years, of 'nothing' spent, Why don't you  
fucking understand?

Not the way, it was meant, Years and years, of  
'nothing' spent

Excuse yourself, but you really can't, Not the way, it  
was meant

Drive your car to your job, Forgotten days when your  
life stopped

Lost the night's you fought the cops, Years and years,  
of nothing spent

Why don't you fucking understand? Not the way it was  
meant

We don't want to live on to decline  
We don't want to live on to decline
